Sir,

With reference to your docket No. 9067 P&A887 dated 16th January 1901, requesting this Office to submit a draft rule for calculating the pension of officers whose service is partly in the Palace and partly in the Government Establishment, and for admitting them to State-Life Insurance, I have the honor to state that pension to Palace servants is not regulated by any rules nor can it be said that Palace service is pensionable. It is therefore not possible to frame a general rule for calculating their pension and for admitting them to Insurance before the question of pension is settled. Some arrangement is however necessary in the case of those officers who first enter Government service and are then transferred to Palace such officers may be permitted to contribute towards pension under Foreign Service rules or their pension and leave allowance may be calculated according to the rule of proportions and subject to the rules applicable to Government Officers. Insurance premium may be continued to be paid according to the Insurance rules.

On hearing the views of Government, necessary additions alterations in the existing rules will be submitted for thei approval.
